

Signature Cell Healing™

A New Experience in Healing

Rev. Mel Morishige's teaching style is gentle, thorough and informative. He shares practical knowledge of healing in a deep yet highly understandable way. Learning with Rev. Mel will broaden your understanding of the hands-on healing process and allow you to consciously tap into even greater levels of awareness within yourself.

Signature Cell Healing™ is a non-invasive touch healing modality which focuses energy on the "signature cell," or God cell, which lies within the pineal gland. This all-important cell holds the memory of our cellular perfection and our original life blueprint. The reawakening of this signature cell allows for a return to optimum health and balance in all four bodies: physical, emotional, mental and spiritual.

Kahu Fred Sterling pioneered Signature Cell Healing over a decade ago through the guidance of Master Kirael. Based on ancient Lemurian wisdom, this integrative method of healing continues to evolve exponentially as practitioners apply Signature Cell techniques in their daily practice with profound results. In this intensive weekend workshop you will learn how to integrate Signature Cell Healing techniques into your daily life and into your existing healing practice.

Rev. Mel Morishige, minister, healer, founding member and workshop facilitator.
